Dear RJ:

I wanted to take a moment to express my thanks to you for the exceptional work your company did on the low-voltage systems at the Target store in Brick, NJ.

This project came with numerous challenges, and you managed to overcome all of them with few, if any, hiccups. The responses we received from Getronics and Target about the quality of the installation and your professionalism throughout the project are proof that this was a job well done. We can't thank you enough for the extra effort put forth to make sure that all the project deadlines were met and all the customer's expectations were exceeded.

You have proven yourself to be an extremely valuable partner to ABcom. We look forward to teaming with you on future projects. Thanks again and feel free to use me as a reference for any prospective customers you have.

Sincerely,

William Read
National Account Executive
